EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerald Shekleton on April 28, 2006.

The application has been amended as follows:

Claim 1 has been amended and the following amended claim 1 will replace the old claim.

1. (amended) A method of controlling a data transmission memory for the transmission of data packets between subscribers comprising the steps of storing, for each subscriber in a pointer address memory, a chained subscriber-pointer address list with address pointers for addressing data memory blocks of a data memory, wherein each said data memory block comprises a plurality of data memory cells; and storing said subscriber-pointer address list, a beginning address pointer to the last memory block, the number of data memory blocks and a filling level of the last data memory block in a subscriber state register; and said controlling the

transmission of data packets between the subscribers based on stored information in the memory.

Allowable Subject Matter

2. Claim 1, 4-7 and 10-22 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of controlling a data transmission memory with a chained subscriber-pointer address list. The prior arts in the record fail to teach or make obvious to a method comprising storing said subscriber-pointer address list, a beginning address pointer to the last memory block, the number of data memory blocks and a filling level of the last data memory block in a subscriber state register within a structure of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clemence Han whose telephone number is
